

Alberto Crespo
Head of Secure Identity
Atos Spain S.A.

Alberto Crespo is currently working at Atos as Head of Secure Identity Technologies Lab within Atos Research & Innovation, managing a multi-disciplinary information security research team which has been/is involved on several security-related national and European R&D projects (IDENTICA, Segur@, Thofu, PICOS, SEMIRAMIS, MobiGuide, PACT, STORK, SSEDIC, STORK 2.0 and FutureID).

He has several years of professional experience in physical and information security projects across Europe which encompass, among others, trust and privacy applied to complex Identity and Access Management projects, credential and access control systems development and analysis (including identity verification solutions based on biometrics applied as well to border control) and consultancy in international standards for the issuance of secure travel and identity documents.

He holds a Degree in Computer Science Engineering (Cp.E.) at the Universidad Pontificia of Salamanca in Madrid with Specialisation Profile in Financial Computing and the International Baccalaureate Diploma (among other bicultural qualifications).
