

Ghassan Karame
Senior Researcher, Security Group
NEC Research Laboratories, Germany

Ghassan Karame is a Senior Researcher in the Security Group of NEC Research Laboratories in Germany. Before joining NEC Labs, he was working as a postdoctoral researcher in the Institute of Information Security of ETH Zurich, Switzerland.

Ghassan holds a Bachelor in Computer and Communications Engineering from the American University of Beirut (AUB) , a Master of Science degree in Information Networking from Carnegie Mellon University (CMU), and a Ph.D. degree in Computer Science from ETH Zurich.

Ghassan is interested in all aspects of security, privacy and applied cryptography, with a focus on cloud security, SDN/network security, and Bitcoin security. More information can be found at: www.ghassankarame.com

Ghassan has served on the program committees of several conferences and has reviewed for several journals. He is a member of the IEEE and of the ACM.
