

José María de Fuentes
Assistant Professor of the Computer Security Lab (COSEC)
Spanish Universidad Carlos III de Madrid

José María DE FUENTES is Assistant Professor of the Computer Security Lab (COSEC) of the Spanish Universidad Carlos III de Madrid. He holds a Ph. D. (with distinction) in Computer Science (2012) by the same University. He also holds the Bachelor in Computer Science (2007) of this institution, in which he got the best academic record award.

His current research interests are data security, privacy protection and applied cryptography. His work has been focused in distributed and ad-hoc network, with emphasis in vehicular networks. More recently, he is opening new research directions related to the “Internet of Things” (IoT).

He has co-authored 14 papers in indexed Journals as well as more than 15 conference articles. He has participated in several research projects., one of them focused on the security aspects of vehicular communications. He has served as Vicepresident of the Spanish section of the IEEE Intelligent Transport Systems Society. He also serves as reviewer for relevant Journals such as IEEE Transactions on ITS or Security and Communication Networks.
