

Lorraine Spector

CEO - LS Consultancy

Providing consultancy in Education, Awareness, Strategy and Implementation, particularly in Cyber Security and Risk Management for SMEs.

Lorraine chaired the NISP Cybersecurity and Risk Management SG4 Workgroup on Awareness and Education, writing on issues such as raising awareness in SMEs.

Her educational initiatives include targeting senior level employees, removing barriers and increasing cyber security knowledge and incentives for the take up of risk management best practices. Lorraine has worked with experts across Europe, preparing recommendations for consideration for the EC Directive.

The consultancy has also undertaken research, strategic planning for EU projects and the not-for-profit sector. Primarily based on the expertise of Lorraine Spector, the consultancy also draws on a diverse group of partners to add expertise when necessary.

Other projects included SSEDIC (Scoping the Single European Digital Identity Community) working with eID specialists.
