

Prof Dr Max Mühlhäuser
Head of Division
Technische Universität Darmstadt, Informatics Dept

Prof. Dr. Max Mühlhäuser is head of the Telecooperation Lab at Technische Universität Darmstadt, Informatics Dept. The Lab works on smart ubiquitous computing environments for the 'pervasive Future Internet' in three research fields: middleware and infrastructures, novel multimodal interaction techniques, and human protection in ubiquitous computing (privacy, trust, & civil security). He is also the deputy speaker of TU Darmstadt's collaborative research center on Future Internet (MAKI) and directorate member of CASED, the center for advanced security research. Max has also led several university wide programs that fostered E-Learning research and application. He heads or co-supervises various multilateral projects, e.g., on the Internet-of-Services, smart cities and smart products, ad-hoc and sensor networks, and civil security. Max authored or co-authored more than 350 peer-reviewed publications. He was and is active in numerous conference program committees, as organizer of several annual conferences, and as member of editorial boards or guest editor for journals like Pervasive Computing, ACM Multimedia, Pervasive and Mobile Computing, Web Engineering, and Distance Learning Technology.
