

Mr. Raimund Wilhelmer
COO
CRYPTAS

Raimund Wilhelmer has a long track record in technically realizing PKI and smart card based authentication projects in large scaled enterprises all over Europe including the public sector, financial institutions and various other industries. Raimund is highly experienced in developing IT security business in the area of eID markets, smart cards and IT security solutions. He has a strong network in these areas and is very well connected to main decision makers in these markets.

As COO of CRYPTAS he is responsible for the Cohors division and the project business. He is co-founder and chairman of the EUSTIx-Alliance which is driving the Enterprise-and User-oriented Strategy for Trust and Identity eXchange by use case driven approaches on common principles and base.
