

Raúl Riesco Granadino
Head of R&D
INTECO

Raúl Riesco current position is Head of Research & Development at the Spanish National Cybersecurity Institute (INTECO), based in León, Spain. He graduated Telecommunication Engineering at Politechnic University of Madrid, Spain, and has been working at different multinational companies like Hewlett-Packard (HP), British Telecom and T-Systems with more than 15 years of experience. In 2007 he moved to INTECO (part of Spanish Industry Ministry) where his main goals were related to Research & Development obtaining different awards in e-inclusion and cybersecurity. He has several certifications among them CISM, Ethical Hacker, Secure Code Programmer, SCRUM Master, Cisco CCNA, ITIL and so on. He managed several international projects, some of them funded by European Commission under CIP-PSP like ASASEC, CLOUDCERT and SCADA LAB. His current interests include the promotion of cybersecurity talent as well as promoting Cybersecurity research. He is co-chair of NIS public private platform by the European Commission for Work Group 3 related to Secure ICT Research & Innovation.
