

**Volkmar Lotz,  
Head of Applied Research Security & Trust,  
SAP**

Volkmar Lotz has more than 20 years of experience in industrial research on Security and Software Engineering. He is heading the Product Security research program of SAP, a group of ~40 researchers investigating into applied research and innovative security solutions for modern software platforms, networked enterprises and Future Internet applications. SAP Product Security Research defines and executes SAP's security research agenda in alignment with SAP's business strategy and global research trends.

Volkmar's current research interests include Cloud Security, Service Security, Authorisation, Security Engineering, Formal Methods and Compliance. Volkmar has published numerous scientific papers in his area of interest and is regularly serving on Programme Committees of internationally renowned conferences. He has been supervising various European projects, including large-scale integrated projects. Volkmar holds a diploma in Computer Science from the University of Kaiserslautern.
