

"Regulation (EU) N°910/2014 on electronic identification and trust services for electronic transactions in the internal market and repealing Directive 1999/93/EC"

**Trust in the Digital World
Madrid 24 February 2015**

**Neil Clowes
DG CONNECT, European Commission
neil.clowes@ec.europa.eu**

The eIDAS Regulation

Strengthens EU Single Market by boosting trust and convenience in secure and seamless cross-border electronic transactions

- *Mutual recognition of e-identification means*
- *Electronic trust services*
- *Electronic documents*

Key principles

Key principles on eID

- *Mandatory cross-border recognition only to access public services*
- *Free of charge for public services*
- *Acceptance relies on defined levels of assurance*

Key principles on trust services

- *Electronic trust services to have the same legal status as their paper equivalent*
- *Technological neutrality*

Timeline

2014

2015

2016

2017

2018

2019

- ✓ Formats of eSeals (art. 37.4)

- **Additional IAs** may also be adopted when appropriate (e.g. circumstances formats and procedures for the notification of eID - art. 9.5)

Messages from private sector event

- *There is increasing business demand for trust, security and convenience in online transactions*
- *Reliability, simplicity and security - deciding factors in uptake-> mobile environment/diversity of credentials*
- *Public sector should lead by example*
- *Need for European interoperability supported by some standards-> federating eID & global dimension*
- *Govs and private sector need business model for provisioning and consuming eID means*
- *Cross-sector & cross-border use of eID calls for more regulatory alignment*

Stakeholder's engagement activities
